PROFILE

Bachelor of management and engineering, freelancer, self taught full-stack web developer located in the UK. Since 2018 working with projects based on JS and PHP. Previously I worked as a construction manager, now I help brands to build their space online, while at the same time working on my personal skills and knowledge to deliver better solutions. Looking for opportunities to grow and deliver high quality solutions.

WORK EXPERIENCE

Front-end developer

UK. Self-employed / Gloss ltd

2018 - current

Build WordPress/Shopify websites, extending functionality with JS and/or PHP, create custom templates to meet customer needs.

- Setup website project, prepare Plugins
